Thursday 24th August

Left down river to Nyps camp & after spending half the day looking for the one that promised to show me the way to Hoyer's, I could not find him so made a start without him, after a couple of hours poling through the scrub & long grass I had to give it best so Turk's to another black's camp & after a lot of argument & promises I got two boys to come with me & got about 5 miles on the way towards Hoyer's

Thursday 1st August

North pt Lloyds in 150
Porky pt or west'n Lloyds 112

Large flock of Galinn metallica noted flying South. Small flock of about 12 Parus atricapillus Ryan also noted. Cardinalis noted at edge of scrub.

The niggers came along for another 4 or 5 miles & then they returned to their camp. They were afraid to accompany further said that Lieut Lee would catch him. I am able to follow the track for a few miles.

then I lost it on some burnt country & could not get onto it again. so I headed straight for Hoyes is across ridges of first country scrubby creeks & hills & open undulating country covered with dense growth 4 to 5 ft high About 3 pm I got a glimpse of the ice from the top of a hill a couple of hours later I struck a good creek & decided to camp for the night. A single pitta sometimes heard calling in the scrub after dark.

Camp on a scrubby creek

Sept 17th

Friday ~~29th August~~ After a stiff struggle through 2 miles of long grass over 6 ft high I struck a sandy mesmate ridge follow this for a couple of miles & come to a tangled tebra scrub Go through this for a mile & a half & then over a succession of sand dunes covered with low growing tangled scrub for ½ a mile & reach the beach about 4 miles N of Hayes so I made my way down to opposite the ice & made a smoke in a couple of hours time a boat came

own manned by a negro named Charles & he took me across the river. Mr Gibbett was not at home, he had left a couple of days previous for Rocky creek & would not be back till about 8 & 9 Monday.

Saturday 30 ~~August~~ Sept 2nd

The only birds noted on the island during the day are Barred shouldered Dove Sooted & Margrave King fishers White rumped wood swallows & Varied Honeyeaters About an hour before sunset the Blue billed Lorikeets begin to come over & continue till dark they fly very high until nearing the is & then swoop down & skim through the tops of the mangroves till they reach their camping place They are coming in thousands at the present time. Saw a falcon (I melanogaster) gliding by the side) catch on a short distance from the is & fly to one of the mangroves to eat it. A few Torres Straits pigeons were also coming over

about 100 birds at present. They fly very close to the water + are when approaching the manoeuvres. Both lots of birds start to leave at daylight + for a couple of hours the noise made by the screaming birds is anything but musical

Sept 3rd

Sunday ~~3rd~~ August

Mrs Terra struck pigeon appears to be coming over. Saw the Falcon again tonight just before dark it flew into the mangroves & it is stopped for a while & then flew back towards the mainland.

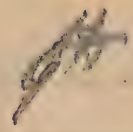
Monday 4th Sept.

Tuesday 5th Sept.

Eblett arrived in the afternoon.

Wednesday 6th Sept
Left for Forbes is reach
there at sundown.

Thursday 7th Sept.
Left for
Pascoe river but could only
get the boat up 2 miles as
the tide had turned



A summatiana visited

Pair of Daniel
mclennans united in Mermaid
front along rims,

15
15

16

Did not see any eggs of birds.

17th Sept

Start

day break for scrub NE of camp
heard parrots call as they flew past
search for some time & at last hear
one calling. Locate it top of big Paper
bark & shot it. Saw one of Fabians
some swamps, Obin & S. Fairhills
shot one of them very poor specimen
spent another couple hours after
parrots neither saw nor heard then
return camp breakfast, skin birds
afternoon go back scrub saw one
of Parrots could not get shot at it
Wait on hill till sunset to
see where they go, only saw
one bird it flew up river couple
of miles last sight of it
return camp.

Thursday 19th Sept. Turn river
& up 6 miles.

Friday 20th
[illegible]
up 8 miles
Keep current 2 ft in.
[illegible]
Fine [illegible]
Keep on bank & cut [illegible]
with saw.
Ship yard [illegible]
of white wood & a few other
[illegible]

Saturday 21st
[illegible]
[illegible]
[illegible]
[illegible]

Friday 22nd Sept Wind
SE Course NE of camp
Creek through it
easterly direction for a couple
of miles. Then SE course
through Mountains to Head
of Reese River & Creek
through it Good Grass
Wood water on any part
of Big Creek.

Thursday 2nd Sept

Female

Length 18 1/2 in Weight 4 oz

Wings outspread 41 in.

Core white [redacted]. Head
of body like white mouse
Eyes. Bill like bird. Neck
long. Breast curves to form
a line of some what a wedge
a piece of a keel. Tail
of some kind.

Saturday 23rd Sept

By Mate Length 16 3/4
Wt 13 1/2. Wings outspread
33 1/2 in.

White cream Yellow
Bill Head. Throat pale
Yellow. Longer wings

Rump pale chestnut mane
black legs black claws
claws brownish black
Female more reddish
grey instead of black
with pale green &
white jugular fine green
mark & more traces of
black fur.

Nimrus rufa bill blackish
white tip white outer
edges darker cere dirty
green. claws dark brown

Sunday 26th September

Hen No 25

Hen No 26

Male Leg'th 9 3/4 Sh. No 27
Wing 7 5/8 Martin enlarged

First noted 17th July.

A little before sunset a strange bird flew screeching past the camp I think it is a Black cockey of some kind flight like that of C galerita call somewhat the same but not so harsh.

23rd July 2 of strange Black cockys fly down river past camp just before dark.
24th Spent day looking for them
5th Aug 1 flew past camp up river morning. Spent day looking for it
6th 1 flew past camp daybreak appeared to settle amongst hills across river. Spent the day looking for it
Heard one call as went down river after sunset got a look at it with glasses predominant colour green.
7th Saw one flying up river predominant colour red.
